

"At TELUS, personal and professional development is important. The genuine sense of community and camaraderie across all our teams drive our continuous growth. If you want to feel valued, heard and appreciated, this is the place for you."

TELUS days of giving

"I have enjoyed an exciting and varied career at TELUS. From helping to build the underwater Internet connecting TELUS to the world as an International submarine cable planner to transforming the way doctors deliver care as a member of the TELUS Health Portfolio Leadership team, I have grown my career through progressive leadership positions. Only at TELUS could I enjoy such career diversity."

But how do we actually work?

- TELUS recognized for demonstrating extraordinary strength and remarkable compassion for our neighbours in need in the city of Fort McMurray
- Flexible working arrangements

Why you're right for the TELUS team

- You're smart, creative, ambitious and curious – it's great that you are thinking of joining us
- You are passionate about doing a great job – it's why you like to come to work in the morning
- Your EQ is off the charts – sharing, caring, and communicating are a way of life for you
- You aren't afraid to take risks – especially when you know your team has your back
- You bring your whole self to work – personal goals, who you are, your life, your family and friends – are all a priority
- You believe you can make a difference – locally, in your community, and globally, as part of a team working hard to keep the planet green

We Are Honoured To Be Recognized
