

Diversity and Inclusion

A Commitment to Gender Diversity

Being a great place for women to work means understanding and respecting each professional and each individual. We have made a strategic priority to promote and achieve gender equality. As such, we have launched a global initiative called TP Women. Teleperformance has more than 300,000 individuals 47.5% male and 52.5% female. We believe that gender balance is key.

Empowering Professionals with Disabilities

We help people of all abilities reach their full potential. We break down barriers and create equal opportunities. At TP, we embrace disability and diversity in the workplace. Beyond hiring, we have implemented practices that encourage and progress professionals with disabilities.

We take pride in our multicultural DNA

At Teleperformance, we value our diverse workforce. We understand that everyone deserves to be respected and treated as a person, no matter where one hails from or who they are. We will continue to fight for non-discriminatory practices and promote tolerance.
